

HAPPY FRIDAY!

Along with the sunshine – here comes finally the newsletter of the week!

NEW ASSIGNMENTS

Congratulations to **Amer Mir** for a new assignment at Ericsson today as an IT-architect! The same project where Niklas Lund works today.

STUDY / CERTIFICATION SUPPORT

Thank you **Mark Fagerlund**, who has been appointed as Lexher's Red Hat Study Buddy! Do you want advice, support, questions when you study something from Red Hat courses and before certification, feel free to contact Mark, and he will help you in the best possible way.

TRAINING / SALES

Thanks also to **Mattias Fahlin**, who during the coming months, will strengthen the training and sales team and work together with Eva.

ROLES WE ARE NOW LOOKING FOR INTERNALLY

Partner Manager & Sales <https://www.linkedin.com/jobs/view/2515267653>

Konsultchef <https://www.linkedin.com/jobs/view/2556973565>

FROM KHALEX

(In English follows)

Under dom senaste åren har vi jobbat hårt för att nå den nivå av partnerskap vi har med Red Hat idag.

*Som ni alla förhoppningsvis vet så är Lexher Red Hat **Premium** Partner idag, vilket innebär att vi har en väldigt nära partnerkontakt med Red Hat som bl a innebär "utbildning", "licensförsäljning" samt "konsultavtal" med Red Hat.*

I och med detta så vill vi även se till att så många som möjligt på Lexher certifierar sig i sina respektive områden. Det lyfter både dig och företaget i kompetensnivå samt ökar chanserna till ännu mera arbetsmöjligheter inom Linux/Red Hat området.

Vill därför uppmana om ni har en certifiering i er utvecklingsplan, tveka inte att ta kontakt med Eva för att boka in certifieringstillfälle. Har ni ingen certifiering i utvecklingsplanen så kontakta gärna Mattias K direkt för att diskutera vilken som skulle passa dig bäst.

Red Hat har också OPEN training, korta kurser (ca 30 min) som ger ackrediteringar, ett tydligt kompetensbetyg. Just nu har vi fokus på nedan kurser och ser gärna att fler av er tar del av dem – inom parentes ser ni vilka som redan klarat!

Red Hat Sales Specialist - Hybrid Cloud Infrastructure (Amer, Eva, Mattias F)

Red Hat Sales Engineer Specialist - Container Platform (Amer, Mattias F)

Samma gäller även för alla som har Juniper Certifieringar som fokus, hör av er till Mattias K direkt för att boka in certifieringstillfälle.

--

During the past years, we've worked hard to reach the level of partnership we have with Red Hat today.

*As you all hopefully know, Lexher is today Red Hat **Premium** Partner, which means that we have a very close partner relation with Red Hat which, among other things, means "Education", "License sales" and "Consulting agreement" with Red Hat.*

According to this, we want to ensure that as many as possible at Lexher are certified in their respective areas. It lifts both you and the company in competence level and increases the chances of even more job opportunities in the Linux/Red Hat area.

Therefore, if you have a certification in your development plan, do not hesitate to get in touch with Eva to book a certification opportunity. If you do not have certification in the development plan, please contact Mattias K directly to discuss which one would suit you the best.

Red Hat also gives OPEN training, short courses (approx. 30 min) with accreditations, a clear competence verification. Right now we are focusing on courses below and would like to see a few more take part in them - in brackets those who already passed!

[Red Hat Sales Specialist - Hybrid Cloud Infrastructure](#) (Amer, Eva, Mattias F)

[Red Hat Sales Engineer Specialist - Container Platform](#) (Amer, Mattias F)

The same also applies to everyone who has Juniper Certifications as focus, contact Mattias K directly to book a certification opportunity.

Hoppas att alla har en härlig helg!

Mvh
Khalex Wan

Have a fantastic weekend!

Lexher Team
